

## Sneaky Art Card Critters

**Where:** In a store, a library, or a laundromat. On top of a wall, a desk, or a birthday cake. A surprise for just about anywhere. Card critters make good finger puppets too.

**Materials:** Index cards in any color  
Scissors, tape, glue  
An assortment of scraps and bits, perhaps including paper, fabric, ribbon, trimming, beads, buttons, yarn, feathers, etc.  
Paper punch and felt pens optional

**How To Make:** Using the pattern on this page as a template, cut out critter base. Overlap and tape edges to form a cone with a smaller diameter for the top opening than at the bottom. It should be able to stand by itself. Decorate any silly way you want. Make a family. With pets. A neighborhood. A whole town!
